∨ Details

Risk description:
The table contains all the unique pages the scanner found. The duplicated URLs are not available here as scanning those is considered unnecessary.

Recommendation:
We recommend to advanced users to make sure the scan properly detected most of the URLs in the application.

References:
All the URLs the scanner found, including duplicates (available for 90 days after the scan date)

⚑ Nothing was found for Cross-Site Scripting.

Scan coverage information

List of tests performed (3/3)
- ✓ Test connection
- ✓ Spider target
- ✓ Scanned for Cross-Site Scripting

Scan parameters

Target: http://manageyourfinances.ddns.net:8080/manageyourfinances/index.php?action=home
Scan type: Light
Authentication: False

Scan stats

Unique Injection Points Detected:	10
URLs spidered:	14
Total number of HTTP requests:	665
Average time until a response was received:	84ms
